PROFILE

Results-driven QA professional with 14+ years of experience, currently enhancing expertise with a Master's in Data Science and Data Engineering from Uppsala University. Proven track record in stakeholder management and project delivery. Excited to merge QA excellence with data engineering insights and drive innovation.

WORK EXPERIENCE

Clover Infotech Pvt Ltd 2022 - 2024
TCoE Team Leader QA, Mumbai, India

- Coordinated project planning, requirements gathering, and test strategy with PMs and BAs. Managed a QA team of 15, reviewed tasks, and conducted end-to-end testing (front-end, back-end, API).
- Reported defects via JIRA and implemented automation regression tests using Cypress, Selenium, and Appium. Delivered test reports to stakeholders, trained team members, and performed root-cause analysis.

Senior Executive QA 2018 - 2022
Indicosmic Capital Pvt Ltd, Mumbai, India

- Led a team of 5 QA engineers, overseeing task delegation and progress reporting to stakeholders. Collaborated with developers on test planning, estimation, and peer reviews.
- Conducted functional and API testing for insurance domain websites and mobile apps. Developed an automation framework using Selenium with Python

QA Manager 2012 - 2013
Bista Solutions Pvt Ltd, Mumbai, India

- Managed projects, defects, and requirements using Redmine and Testlink, coordinating with global teams to gather client requirements and deliverables. Designed wireframes, prepared use cases, BRDs, and user guides for international clients (USA, UK, Canada, Germany, South Africa).
- Established QA processes, mentored team members, developed test strategies, and ensured timely delivery of high-quality results. Oversaw task assignments, provided feedback, and appraisals.

Senior Engineer Quality Control 2006 - 2013
Geodesic Ltd, Mumbai, India

- Verified applications against requirements and managed defects using Redmine and Bugzilla. Created and updated test cases for functional changes.
- Conducted front-end, back-end, and database testing, including SQL query validation.

EDUCATION

Master in Data Science Data Engineering 2024 - 2026
Uppsala University, Uppsala, Sweden

Bachelor in Computer Engineering 2001 - 2004
North Maharashtra University, India
